(Saklespur & Chikkanayakan) had been placed a meeting was held at Arasikere to help them. In the Conference the Diwan promised to give them working Expenses at Rs. 50 per acre and told them that they should give to pot all the crop that was harvested. The pleb. represented at the time that he would improve 140 acres of his Estate and that if he was given working Expenses at 50 Rs. per acre till the improvement was Effected he would hand over all the crop. Mr. Pillington, who was Subsequently appointed Inspector of Coffee Estates, told him that he should improve only 68 acres of the Estate and continued to advance him small Sums. In this Extent he has replanted about 50 000 coffee plants in places where the old trees had died. In this manner about 80 acres have been improved. ~~These plants are not yielding crop~~ Of 40 more acres, where the old trees now yield, are replanted with about ~~40 000~~ fifteen thousand plants in the places where old trees have died, about 120 acres of the Estate would be in an improved state and it would yield full crop in one or two years. He has requisite plants in the nursery. ~~His coffee difficult for~~ plants planted in the old Estates do not thrive. ~~As~~ Ordinarily but in the plebs Estates all these plants are thriving well and have commenced to yield. The Estate yielded 150 and 200 maunds during the previous two years which was not sufficient to recoup the amount spent for cultn. During this year it yielded 750 maunds and he had a net income of about Rs. 3000. If the 120 acres of the Estate are improved it will in course of 4 or 5 years yield 2 or 3000 maunds of coffee.

3 "Last year the bank was wound up. It has been arranged that the loans due to the bank with interest due thereon and the amount advanced on account of working Expenses should be repaid in 20 annual instalments to the members of the Bank. When the Dy. Comr. asked them at the meeting held at Lakkesapur to Execute deeds they represented to him that owing to the depression in the coffee market they were unable to pay the arrears of interest due and the future interest on the principal that they would pay up the principal in full and the amounts advanced for working Expenses with interest thereon and that the members who owed more than 50000 Rs should be permitted to repay their dues in 30 years. He told them that he had recommended to Govt for the compliance of their request but the Govt declined to sanction it.

4 "The main prayer of the petn is:-
He should be given an advance of Rs. 5000 annually on account of working Expenses. The coffee crop this year is very meagre for want of seasonable

It will be seen from Statement A. furnished by the Dy. Commr., Kalpeni District with his No. 4 dgb. of 17-7-06 requesting sanction of advance for working Expenses of the Estates by posthumates of the late Sahib, for Agricultural Bank, of which petr. was a member, that the amount of the loan due by the petr. to that bank amounts to Rs. 67,440 and that the following amounts were due by and recovered from him during 1905-06.

The sale proceeds of crops of petr's Estate for 1905-06 amounted to Rs. 5871-3-, of which Rs. 343-11-6 was paid for Kaudayam and the balance, Rs. 5527-7-6 towards his dues above referred to. Thus the petr. still owes a sum of Rs. 7583-5-7 towards the demand against him for 1905-06.

In the Statement B. forwarded by the Dy. Comr. with the letter above referred to, the petr. is shown to have applied for an advance of Rs. 3000 for working Expenses for 1906-07. Mr. Pilkington, Inspector of Coffee Estates, recommends the grant of Rs. 1600 on the Estimated quantity of coffee crop of 230 maunds Valued @ Rs 18 & 20 Rs @ 8 & 9 Rs. ~~8~~ per maund respectively - Subd.

10 Briefly, the petr. has applied for a loan of Rs 3000/ and has been recommended by the Inspector ~~for~~ of Coffee Estates on a consideration of the probable yield, to be given a loan of Rs 1600/. But he now wants an advance of Rs 5000/- for the current year and three or four years more —

without interest.

11. In dealing with this question, the chief point, I take it, is to see that whatever arrangement is made, it should be efficient for the purpose of materially reducing the owner's liabilities, yearly year and should enable him to entirely liquidate his debts within a reasonable time. Last year a sum of Rs 1800 was advanced towards working expenses; this sum and the interest thereon was repaid, and also a sum of Rs 769-2-1 towards old arrears: but on the 1st January the interest for the year came to Rs 1697-9-7, so that instead of the liabilities being materially diminished they actually increased by Rs 28/-. It appears therefore necessary to increase the amount of the annual advance for working expenses, up to a sum that would enable the owner to improve the condition of such portions of his estate as have not suffered very much, besides meeting the ordinary working

There is some risk in advancing a larger sum, but I think it may be tried for a couple of years.

Mr. Silkenstagge represents that, by conveying a larger sum to him every year for working expenses, he could be in a position to improve a larger portion of the Coffee estate, is plausible, & even perhaps sound; but it seems safest to trust to the judgment of the local officers in a matter of this kind. Mr Silkenstagge recommends only Rs 1600 for the current year, as against Rs 5000 asked for by Mr Silkenstagge. The present petition may perhaps be forwarded to the Dy Com^r for submitting his own opinion & that of Mr Silkenstagge.

This may be done. It may above ascertained if the A.C.O. allegation of Mr. referred to in para 6 of the note & marked in blue pencil is correct, if so why the amount was not paid.

the Dy Commrs recommendation made in July06 is Rs 1600. So even the working expenses is not likely to be realized during the Current year and Pilkington says that Rs 4000 may be advanced at Rs50 per acre and that it is better to cultivate the 80 acres which are reported to be in good Condition instead of bringing less fertile parts under cultivation ~~in the~~ This recommendation of Mr. Pilkington is not based on the value of crops expected this year therefore doubtful if the ~~petn~~ petitioners request for a larger advance than has already been given to him can be entertained. As working expenses are given only with reference to the estimated crop of each year, Govt cannot commit themselves to grant a specified amount for a no of years as prayed for by the petitioner.

It will be observed that in 1905-06, the yield was very good so much so that the advance for working expenses for the year and a large deficit of advance of previous year were recovered. Though the estimated crop for 1906-07 is poor, the extent of good coffee land estimated at 80 acres should be maintained in good condition and as recommended by Mr. Pilkington the advance necessary for the purpose should, I think, be sanctioned alike in the interests of Government as well as of the planter. The amount is estimated at ₹4000/- at ₹50/- per acre, but it should be capable of some reduction as regards portions which have not borne any crop this year.

Sir.

Adverting to your letter No: Fl 1132/B.13-06-24 dated 30th July 1906 forwarding for my opinion petition dated 19th July 1906 of Mr. S. Sreekantiah Coffee planter, Sundekere Estate, Mangerahad Taluk praying for an annual advance of Rs: 5000/- for the working expenses of his Estate for a period of 4 or 5 years,

9

I have the honour to submit as follows:— (a) Mr. Sreekantiah's total debt up to end of June 1906 amounts to a big sum of Rupees 90,482-8-3 as detailed in the margin.

	Rs	as	ps
Loan	67,440	0	0
Interest thereon	22,519	15	3
Deficit of working expenses	372	7	7
Interest thereon	150	1	5
Total Rs.	90,482	8	3

(b) The amount realized by the sale of Coffee and Cardamom Crops of his Estate for the past 3 years did not even cover the amounts advanced to him by Government with interest thereon in those years for the working expenses of his Estate, which results in a deficit of Rupees 522-9-0 (including interest) up to the end of June 1906. (c) The estimated outturn of the current year's Coffee Crop of Mr. Sreekantiah's Estate is only 150 maunds which if valued at Rupees 8/- per maund amounts to only Rupees 1,200/- which would hardly be sufficient to cover the total amount to be advanced to him with interest thereon. Hence it would not be possible to advance him

Vide A

him as much as Rs: 5,000 per annum for the working expenses of his Estate for a period of 4 or 5 years - as prayed for by him.

2. As regards the allegations made by Mr. S. Sreekantiah in para 6 of his petition I beg to state that Government in their Proceedings No: Fl 6994-6 / B. 33-04 dated 15th April 1905 directed that advances recommended for the working expenses of Estates hypothecated to the late Sakleshpur Agricultural Bank should be prepared - and submitted for the entire official year ending 30th June and not for the cultivating year ending 31st March as was previously done. Accordingly the recommendation for the sanction of allotments for the entire official year 1905-06 was submitted, - and the same was sanctioned by Government, the intervening period between the - 31st March and 30th June 1905 being omitted as concerning the previous Official year 1904-05. To make up for this while distributing the sanctioned allotment of the

year

BS-05-2

year 1905-06. I purposely fixed the allotments for the first three months of the official year viz July, August and September 1905 at higher figures than for subsequent months with the object of covering as far as possible such expenditure as might have been incurred by the Estate owners in the working of their Estates during the preceding three months of April, May and June 1905, and the fact was intimated to all the owners of the Estates hypothecated to the late Sakleshpur Agricultural Bank including the Petitioner Mr. S. Sreekantiah by endorsement No. 14-21 Agts dated 31st July 1905 from this office.

3. I herein enclose for information copy of letter No: 46 dated 13th August 1906 received from Mr. H. Pilkington, Inspector of Coffee Estates, furnishing his opinion on the subject of para 1 above.

4. The Petition received with the letter under reply is herewith returned.

To,

P. R. W. Wetherall Esquire
Deputy Commissioner,
Hassan District.

Sir,

With reference to your letter No: 9 Ag. B of 3rd/6th instant enclosing Canarese Copy of Mr. S. Srikantiah's petition to Government of 19th ultimo Copy of Revenue Secretary's letter No 71 1132/13.13-06-2 dated ultimo, mentioned in your letter under reply, was not, however, forwarded by you; so as I am unaware on what point or points my opinion is called for I am replying to each para of the petitioner's letter.

Para 1. With regard to the acreage. A reference to my Initial Report of April 1903 will show the detailed acreage, amounting to acres 208; but of this some acres 38 was waste and never cultivated.

Flag Y

Mr. Saldanha of Mangalore, who financed the estate for many years previous to the formation of the Bank, and at one time contemplated purchasing it, told me that the original estate

Consisted

Consisted of acres 80 of good Coffee, and in his opinion was ruined by the addition of inferior land, though it might have been made up successfully to about Acres 130.

I formed the same opinion in April 1903. And my Initial Report shows in what a deplorable state the property then was.

At that time I was instructed by the Deputy Commissioner to conform to para 1 of Government Proceedings No. R. 2407-10/R.T. 100-96 of 26-11-02, and only to recommend such advances as would be covered by crop. I pointed out that the condition of the Estate, and the prospects of a short crop rendered strict adherence to this order impossible; and that the quality of the Coffee warranted a larger expenditure to save it from further deterioration.

I was therefore only able to advise spending the money available to the best advantage, and selected acres 68 of the most promising fields recommending an expenditure of Rupees 3,522/- which was reduced to Rupees 3,000/- by the Deputy Commissioner, or to the equivalent of about Rupees 45/- per acre.

I deemed it far better to work a smaller acreage as well as circumstances would permit,

rather

rather than waste money by attempting too much. And I think that the present condition, and improved financial position of the estate shows that I was right. I still think that there would have been a better result had more money been spent in working up this, and some other estates, during the first two years, under strict supervision: but Government proceedings in: F 6994-6 / B. 33-04 of 15-4-05 - again limited expenditure to the value of the Coming Crop.

Flag R

The figures are approximately as follows:

1903-04	Deficit between Working Expenses and proceeds of Crop	Rs: 1,968-8-2
1904-05	— Ditto — Ditto	" 824-4-2
	Add interest &c	" 398-14-9
		3,191-11-1
1905-06	Profit - Ditto	" 2,669-2-1
	Debit balance on the 3 years working ...	Rs 522-9-0

And it must be borne in mind that the value of the property has been very much enhanced, and that these figures include interest, and arrears of assessment.

It is quite true that Mr. Sreekantiah has brought more land under cultivation and made up the acreage to about Acres 80. In the better parts his supplies are very promising; but in some other parts they are not so successful; and it is doubtful if work is extended

to

to the other abandoned parts of the estate that it will be any better, or as good.

There is really much work still required in the Acres 80 now under cultivation to put it into thorough order. Last year was a "bumper" one and the trees which had flushed from shade Regulating done, bore a heavier crop than they could ripen, starved as they have been.

I think it far better, therefore to manure and thoroughly work up this Acres 80 - and possibly increase the acreage gradually to 90 or 100 acres - as funds admit, than to embark on rash schemes of replanting abandoned land that may - or may not lead to further loss.

Para 2. — prays for remission of the arrears of interest on the original loan. I personally suggested this remission at the time of the Dassara of 1904, as, Considering the fall in the price of Coffee it appears a reasonable Concession; it would make no difference to the useless estates, but would encourage the better workers who really want to pay off the debt.

H 3130-1 15/11/05

Para 3.... Is a repetition of the request made in para 1, and further prays for an allotment for working expenses for 4 or 5 years irrespective of the proceeds of Crop.

In

In my opinion Rupees 4,000/- or Rs: 50/- per acre for acres 80 should be sufficient and further planting extensions be determined on my results; but steps must be taken to ensure the same being properly spent.

In cases in which the owner has no means apart from his estate, I think payment of the balance of the proceeds of crop to Government after deducting Working Expenses is fairer than fixed annual payments.

Para 4.... is a repetition of para 2.

Para 5..... Mr. Srikantiah's is a sad case. His two elder sons have become insane, and he has only his third son a lad of 18 to help him, and a young family to support.

Para 6..... My recommendations for Working Expenses have been duly made.

Para 7..... Mr. Srikantiah's debt is one of the largest, and now amounts inclusive of interest to about Rupees 90,482-8-3. Unless there is a substantial increase in the price of Coffee, I fail to see how

how he can hope to pay it from
the returns from his estate

I have &c

SUBJECT

Letter No. 52/agb of the 30th October 1906 from the Dy. Commr. of the Hassan District submitting his opinion together with that of Mr. Kilkinston on the subject.

Order No. H 5643-5 / B 13-06-22 } 24-1-07

Mr. Srikantiah represents that with a larger annual advance for working Expenses, he would be in a position to improve a larger portion of his Coffee Estate It is observed from Statement A (Page) submitted by the Dy. Commr. with his letter No. 4/agb of the 17th June 1906 that in 1905-06 the yield from Mr. Srikantiah's Estate was Rs. 5871-3-a which recouped the advance for working Expenses of the year viz., Rs. 2800/= and a large deficit of advance of the previous year. Though the crop for 1906-07 is Expected to be poor, the Extent of good Coffee land Estimated at 80 acres should be

maintained in good condition both in the interest of Govt. as well as of the Planter. The Govt. are therefore pleased to sanction an advance of Rs. 4000 at Rs. 50 an acre as recommended by Mr. Pilkington It is believed that the amount is capable of some reduction as regards portions which have not borne any crop this year. This aspect of the matter should be investigated by the Inspector of Coffee Estates before the amount is advanced

The Rev. Commissioner is requested to ascertain whether the sons of Mr. Pillai Kandiah, who is reported dead, are prepared to work the Estate. Otherwise, the Inspector should be asked to take charge of it and arrange for its upkeep with the assistance of the Dy. Conservator.

As regards the second drawer of Mr. Pillai Kandiah, it has been e-
